

Ring Size Guide

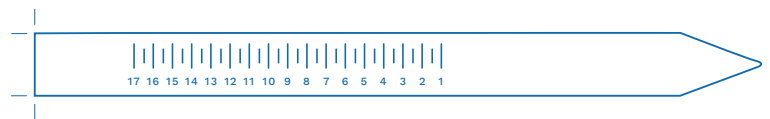

Before measuring your ring size, be sure this guide is printed in A4 size and scaled to 100%. You can check the accuracy of your print by positioning a credit card on the line on the right. If the card lines up, you're all set.

OPTION 1: MEASURE WITH THE FACETS RULER

1. Carefully cut out the ruler to the right.

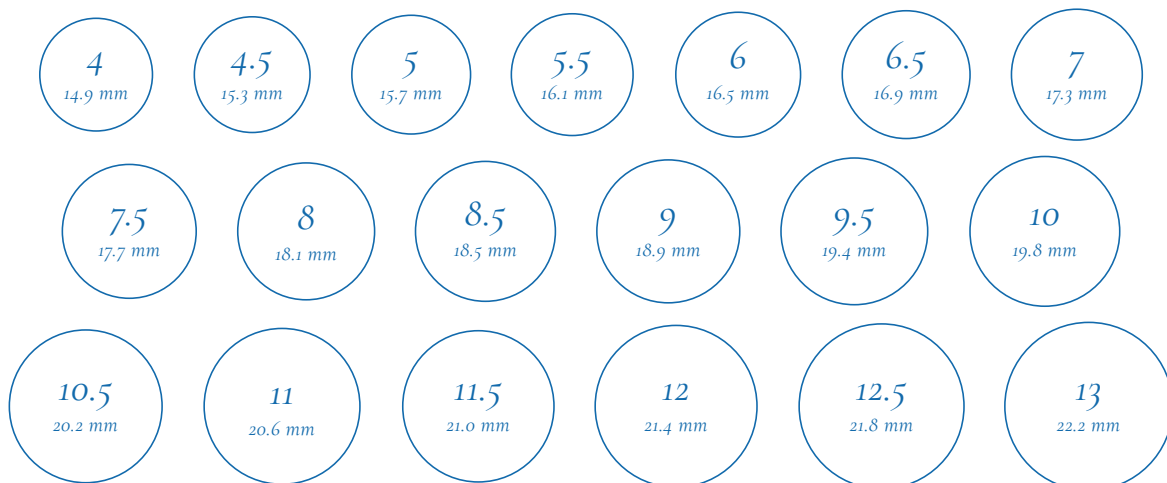

2. Wrap the ruler around the knuckle (or widest part) of the finger to be sized. Start by placing the flat end of the strip on the finger, and wrap the arrow end all the way around until the fit is snug.

3. Once wrapped, the number closest to the arrow point is the ring size. Hash marks between the numbers represent half sizes. If in doubt, move up to the next largest half size. Sizes are standard USA sizing.

OPTION 2: MEASURE BY MATCHING YOUR RING

To find your ring size, use an existing ring that fits you well. Place it over the circles below, matching the inside edge of the ring to the drawing. If the ring falls between two sizes, choose the larger size.

OPTION 3: USE A STRING

If you have measured the finger to be sized with a string or know the circumference in millimeters, use the following chart to convert the length to a ring size. If in doubt, move up to the next largest half size.

46.5 mm	Size 4	53.1 mm	Size 6.5	59.7 mm	Size 9	66.0 mm	Size 11.5
47.8 mm	Size 4.5	54.3 mm	Size 7	60.9 mm	Size 9.5	67.2 mm	Size 12
49.0 mm	Size 5	55.6 mm	Size 7.5	62.2 mm	Size 10	68.5 mm	Size 12.5
50.3 mm	Size 5.5	57.2 mm	Size 8	63.5 mm	Size 10.5	69.7 mm	Size 13
51.7 mm	Size 6	58.4 mm	Size 8.5	64.7 mm	Size 11	71.0 mm	Size 13.5
